Iowa State University College of Agriculture & Life Sciences and Ivy College of Business faculty, together with seed industry experts, have developed two continuing education opportunities designed for the seed industry professional.

The Seed Business Management short course is offered February 4-8, 2019. This detailed course takes an in-depth look at how the seed industry functions from a business perspective. Case studies, special guest speakers, and networking opportunities highlight the week.

The Seed Science & Technology short course is offered November 4-8, 2019. This one-of-a-kind learning experience focuses on the life cycle of seeds and current industry technologies. Hands-on demonstrations and industry tours provide a clear picture of the many facets of the seed industry.
